Junbin Chen

Address:
2302,
222 Marsh wall,
London.
E14 9PH

Email:londonjunbinchen@gmail.com
Phone: 07521356683

Working Experience (Industry)

Lloyds Banking Group 2020.Oct.-2026.Jan.

Position: Manager in Market risk AI team 2025.Jun.- 2026.Jan.
1) LLM audit
2) Trade Surveillance

Position: Manager in market risk approval 2024.Apr.- 2025.Jun.
1) FRTB (Python)
2) IBOR transition – rate backfilling, VAR remediation (Python, C++, VBA)

Position: Assistant Manager in pricing model validation 2020.Oct.-2024.Apr.
1) MM pricer and its risk's validation (Python)
2) e-rate validation (Java)
3) efx algo trading validation (Java)

United Credit Ratings Co. Ltd. Beijing 2015 May.-2015 Jul.

Position: Intern
1) Migrate the corporate bond rating reports and each corresponding companies' financial statement from old system to the new system
2) Conduct due diligence to ensure the correctness of data during the data migration process

Working Experience (Academia)

Durham University 2016-2019

Position: Undergraduate Tutor 2016-2018
1) Conduct and deliver various undergraduate math courses' tutorials for 12 groups of students
2) Evaluate students' tutorial homeworks and monitor students' performance
3) Provide small-session guideline for students who are struggle with course content

Working Experience (Academia) Cont.

Position: Teaching assistant 2016-2018

1) Assist undergraduate course lecturer in evaluation of students' course work
2) Report any Lecturer notes' errors, reflect any difficulties that student experience in the course content to designated course Lecturer
3) Communicate with the course lecturer with regard to any ambiguities found in the course assignments

Position: Research student representative 2016-2019

1) Organize annual welcome events for new students in the department
2) Collect and report options, feedbacks from research-level students
3) Prepare and present seasonal reports in the departmental board of studies meeting and provide suggestions for improvements of working environment within the math department.
4) Lead annual departmental scientific activities for the public audiences.

Education History

Durham University
Ph.D. in mathematics. 2019 Jul.
Thesis title : **Contributions to Nonparametric Predictive Inference for Bernoulli Data with Applications in Finance.**
Fields: statistics
Durham University
MSc. in mathematical science, 2014.
Joint honored program between China Agricultural University and University of Bedfordshire
BA. in business administration 2009.

Previous Research Interest

Imprecise probability theory and its application

Summer school and training

7th SIPTA Summer School. Durham. Sep. 2016
https://school16.sipta.org/

Academy for PhD Training in Statistics (APTS).
Statistical Computing and Statistical Inference
University of Cambridge. December 2016
http://www2.warwick.ac.uk/fac/sci/statistics/apts/students/weeks/

Academy for PhD Training in Statistics (APTS).
Applied Stochastic Processes and Statistical Modelling
University of Oxford. March 2017
http://www2.warwick.ac.uk/fac/sci/statistics/apts/students/weeks/

Conference and workshop

"Nonparametric statistical inference under shape constraints"
International centre for mathematical sciences, Edinburgh. May 2016
http://www.icms.org.uk/workshop.php?id=382

9th Workshop on Principles and Methods of Statistical Inference with Interval Probability, Durham. Sep. 2016
http://sipta.org/index.php

General helper and presenter in Research student conference.
Durham. Apr. 2017
http://rsc2017.org.uk/the-team/
Presentation topic: "NPI of asset prices evolvement within short time scope"

Statistics for graduate student seminar.
Durham. May 2017
Talk Title: "A naive introduction of imprecise probability Theory"

7th International Conference of the Financial Engineering and Banking Society.
Glasgow. Jun. 2017
http://febs2017.eventsadmin.com/i/Programme
Presentation topic: "On NPI to asset and EU option Trading"

17th Winter school on Mathematical Finance
Lunteren, Netherlands. Jan. 2018
Poster Title: "On NPI to asset and EU option Trading"

Publication

"On nonparametric predictive inference for asset and European option trading in the binomial tree model" *Journal of the Operational Research Society*, 2019.

"Sequential selection Problem with uncertain group arrival" *Journal of the Operational Research Society*, 2022 (In Progression).

Event

"Celebrate Science" Durham's organizer
One of Mathematics department illustrator for "The Cool Shapes of Viruses"
Oct. 2016 & Oct. 2017

Hampton Court Palace Half Marathon.(Finished 01:55:04)
London Mar 2017
http://results.racetimers.co.uk/results.aspx?CId=16487RId=4066

FitBit Semi de Paris Half marathon.(Finished 02:01:46)
Paris Mar 2018
http://www.fitbitsemideparis.com/en/races/results/results-semi-de-paris

Languages

Chinese (native), English (advanced), French (lower-intermediate), Spanish (beginner)

Skills	C++, Java, Python, R, LaTeX, VBA, Swift, HTML/CSS, MS Office
Certificate	FRM level 1
